

JOINT TUFTS/MIT COSMOLOGY SEMINAR

Intergalactic Magnetic Fields

Tanmay Vachaspati
Arizona State

I will describe theoretical motivation for the existence of parity violating (helical) intergalactic magnetic fields and recent and growing observational evidence for such fields.

Tuesday, November 4, 2014, 2:30 pm

Cosman Seminar Room

Center for Theoretical Physics

Building 6C, Room 6C-442

Massachusetts Institute of Technology

Refreshments at 2:00 in the same room
