

JOINT TUFTS/MIT COSMOLOGY SEMINAR

*The big constant out, the
small constant in*
Gregory Gabadadze
NYU

I will describe how the old cosmological constant can be solved in a modified theory of gravity, and the dark energy component incorporated into the picture

Tuesday, November 18, 2014, 2:30 pm
Robinson Hall, Room 250
Tufts University

Refreshments at 2:00 in Knipp Library, Room 251
