*Searching for Signals of  
Cosmic String Wakes in New  
Observational Windows*

Robert Brandenberger  
McGill

I will discuss the signals of cosmic string wakes in new observational windows such as CMB anisotropy maps and 21cm redshift surveys.

Tuesday, April 2, 2013, 2:30 pm  
Robinson Hall, Room 250  
Tufts University

Refreshments at 2:00 in Knipp Library, Room 251
